

Halton and St Helens

Relocation of the St Helens Integrated Community Equipment Service

Following a review of the current St Helens equipment services arrangement by NHS Halton and St Helens, the provision of equipment to St Helens residents will transfer from Knowsley Integrated Community Equipment Service to Halton Integrated Community Equipment Service (HICES), at its base in Runcorn from Monday, 6th September 2010.

The service can be contacted on **01928 842721**.

Users of the service will not see any change to the service, and will continue to receive delivery of equipment just the same. The Integrated Community Equipment Service will continue to provide the same high quality excellent service to all its clients.

St Helens patients who have queries or concerns about the relocation can contact the Customer Care Unit on **Freephone 0800 849 7088**.
